

Clinical Quiz

What is the Diagnosis?

CY YEUNG

Figure 1a.

Figure 1b.

Case 1 (Figure 1)

This 2-day-old term baby was held by her hands and her leg in the manner as shown in figures 1a and 1b respectively.

- What do you expect the child's neurologic status to be like?
- What do you think the child is most likely suffering from?

Figure 2a.

Figure 2b.

Case 2 (Figure 2)

This 8-year-old boy presented with skin lesions at his left elbow and his knees.

- What are the skin lesions?
- What relevant family history might be elicited?
- What blood test might be relevant to the diagnosis?
- What is the likely diagnosis?

Answer to "Clinical Quiz" on Page 186

N.B. The Editors invite contributions of illustrative clinical cases or materials to this section of the journal.
